SECTION 3: ADVANCED QUESTIONS (Level 3)

For Experienced RTI Users & Advocates

3.1 Legal Framework & Interpretation

Q92. How is "reasonable time" defined for computerization? A: Not specifically defined - courts interpret based on department's capacity. Generally 2-3 years is reasonable.

Q93. What is "disproportionate diversion of resources"? A: PIO can refuse if responding would excessively strain resources. But threshold is high - must be proven.

Q94. Can PIO charge for "search and retrieval"? A: No, PIO cannot charge for finding and preparing information. Only copy costs can be charged.

Q95. Is RTI fee an application fee or information fee? A: Application fee only. You pay ₹10 to register request. Copy charges are separate.

Q96. What is "prescribed fee" vs "actual cost"? A: Prescribed fee is per regulation (₹2/page). If actual cost is higher, PIO must justify charging more.

Q97. Can PIO refuse if applicant is serial RTI filer? A: No, frequency of applications doesn't matter. Each application must be processed on merit.

Q101. What if application is incomplete? A: PIO can ask for clarification but cannot summarily reject. Must give reasonable opportunity to correct.

Q102. Can PIO demand "why" for information? A: No, Section 6(2) explicitly says reason is NOT required. Asking why is violation.

Q103. Can PIO refuse application because "not in prescribed format"? A: No, any format (plain letter, email, portal) is acceptable. Cannot demand specific format.

Q104. What if PIO asks for more fee than prescribed? A: This is illegal. Appeal immediately citing overcharging. PIO can only charge prescribed amount.

Q114. Can trade secret protection last forever? A: No, after 20 years, information becomes accessible (Section 8(3)) unless sovereignty/cabinet papers.

Q115. What if information is both personal AND public interest? A: Balance is applied. Public interest (corruption, illegality, health/safety) usually overrides personal privacy.

Q124. What is timeline for suo motu disclosure? A: Within 120 days of RTI Act enactment (already passed), then ongoing annual updates required.

Q125. Can department fail suo motu disclosure? A: Yes, many departments are non-compliant. You can complain to SIC about inadequate suo motu disclosure.

SECTION 4: TRICKY QUESTIONS (Edge Cases & Challenges)

Difficult Scenarios Requiring Nuanced Answers

4.1 Timeline Complications

Q141. What if PIO says "file is with another department, we'll get it after 15 days"? A: PIO still has 30-day obligation. Internal delays are not excuse. You should escalate if deadline isn't met.

Q142. Can PIO extend 30-day deadline by claiming "voluminous information"? A: No, voluminous data is not valid reason per Section 7. PIO must manage within 30 days.

Q143. If I file RTI on 30th of month, when is deadline - 29th or 30th? A: Deadline is 30 days from receipt. If received on 30th, deadline is 30th of next month (or last day of month if shorter).

Q144. What if received on 31st, how is 30 days counted? A: From 31st, counting 30 days gets you to 30th of next month (or last day if shorter month).

Q145. Does holiday affect the 30-day counting? A: No, 30 days means calendar days, including weekends/holidays.

Q146. Can PIO claim "we have to check 100 files for one piece of data"? A: No, compilation time is included in 30-day deadline. Cannot demand extension for compilation.

Q147. What if transfer happens on day 29? A: Receiving department gets full 30 days from transfer date, not remaining 1 day.

Q148. If third-party objects late (day 15 instead of day 10), what happens? A: Depends - if genuinely late (beyond day 10), PIO may not consider. Or may grant extension if for good cause.

Q149. Can multiple extensions make it 60-90 days total? A: No, standard timeline is 30 days (or 40 with third-party). Extensions only for specific circumstances.

Q150. If PIO is on leave, does timeline pause? A: No, timeline continues. Department must arrange another PIO or senior officer to handle during leave.

4.2 Information Existence & Scope Confusion

Q151. Can I demand PIO to "verify" if information exists? A: No, you describe what you want. PIO searches. If doesn't exist, PIO says so with reasons.

Q152. Can I ask PIO to "create analysis" of existing data? A: No, you cannot ask for analysis. You can only request existing reports/documents.

Q153. What if information exists but in unorganized form? A: PIO still must provide organized response within 30 days. Cannot claim "too scattered."

Q154. Can I ask for "all communications" between two people? A: Too vague. You must specify: emails, letters, meetings, or which specific period/project.

Q155. If data is partly digital and partly paper, can cost be charged for compilation? A: No, compilation and search is free. Only copy cost (₹2/page) can be charged.

Q156. Can I ask for information from before RTI Act came (pre-2005)? A: Yes, historical records are accessible. After 20 years (2025 for pre-2005), automatically accessible.

Q157. What if record is damaged and partially illegible? A: PIO must provide available legible portions and inform about damage.

Q158. Can I ask "what information does PIO have about X subject"? A: Too vague. You must be specific: documents, reports, correspondence, etc.

Q159. If computer system has partial data for period, must full period be searched? A: Yes, PIO must search all systems (digital and paper). Cannot give partial just because some data is missing.

Q160. Can I ask "provide proof that decision was made transparently"? A: Too vague. Ask specifically: "minutes of meeting," "file noting," "approval email," etc.

4.3 Department Confusion & Routing

Q161. I don't know which department has information - can I ask multiple? A: Better to file to likely department. If wrong, they transfer (5 days). Alternatively, file to Chief Secretary who can route.

Q162. If information is jointly held by 2 departments, where do I file? A: File to primary/coordinating department. They coordinate with other department within their 30-day period.

Q163. What if PIO doesn't know whether they have information? A: PIO must search their records. If still not found, must inform. This is PIO's responsibility, not yours.

Q164. Can I file same RTI to both departments to be safe? A: Technically yes, but wasteful. Both will respond (you pay ₹10 each time). Better to file to primary source.

Q165. What if one department says "not with us, contact XYZ department"? A: Should be formal transfer (Section 6(3)). If informal, you can file separately or appeal for proper transfer.

Q166. Can PMO (state chief minister's office) refuse saying "transferred to ministry"? A: Only if information is actually held elsewhere. Cannot refuse on pretext of transfer without actually transferring.

Q167. What if ministry says "this is handled by state, file there"? A: If it's truly state matter, they must formally transfer. Cannot verbally redirect without formal procedure.

Q168. Local body (municipality) vs state government - which should I approach? A: Depends on what information. Municipal matters → municipality PIO. State level → state department PIO.

Q169. If information is held by both state and district office, whom do I approach? A: State level office (SIC supervises state level). They coordinate with district if needed.

Q170. Can I file RTI asking "which department has this information"? A: Yes, you can file meta-RTI. Department should respond or direct you to correct department.

4.4 Exemptions - Tricky Applications

Q171. If document contains some confidential + some public info, what happens? A: Partial disclosure - public parts given, confidential parts withheld with explanation (Section 10).

Q172. Can "investigation ongoing" forever prevent disclosure? A: No, once investigation closes, information becomes accessible. 2-year limit should be applied.

Q173. What if cabinet paper discusses corruption - must it still be hidden? A: Section 8(2) public interest override applies. Corruption disclosure overrides cabinet confidentiality.

Q174. If trade secret is already publicly known, can it still be withheld? A: No, if secret is already public, exemption doesn't apply. Information already in public domain is accessible.

Q175. Can personal information be withheld if person is public figure? A: Yes, public figures get less privacy protection but still some. Information must relate to public role/activity.

Q176. What if information reveals security lapse - can it be withheld? A: Tricky - security breach is public interest, but disclosing details might compound breach. Typically withheld initially.

Q177. Can draft policy be withheld forever as "draft"? A: No, once 1-2 years old, draft becomes "historical" and should be disclosed.

Q178. If government admits information would cause "embarrassment," can it refuse? A: No, embarrassment is not valid exemption. Only specific Section 8 categories apply.

Q179. Can government refuse saying "will set bad precedent"? A: No, precedent concerns are not valid exemptions under RTI. Each request judged on merits.

Q180. If both Section 8(1)(h) and 8(1)(j) apply, which takes precedence? A: No precedence - if any exemption applies, information can be withheld (unless Section 8(2) override applies).

4.5 Appeal & Escalation Tricky Cases

Q181. What if first appeal officer says "agree with PIO, request denied"? A: You can appeal to SIC within 90 days citing reasons why officer was wrong.

Q182. Can I directly go to SIC without filing first appeal? A: In some states yes (if no senior officer designated). In Chhattisgarh, first appeal must go to designated senior officer (if any).

Q183. What if appeal officer delays beyond 45 days? A: Deemed approval - information must be disclosed. You can also escalate to SIC.

Q184. Can first appeal be rejected saying "no new evidence"? A: No, appeal officer must review PIO decision afresh, not just accept PIO reasoning.
