

CG RTI Portal - Citizen FAQ

Registration, filing workflow, payment, appeals, status, and PIO details

Question-and-answer guide based on the supplied portal manuals

Scope note: This guide explains the procedures shown in the supplied manuals. It does not replace the current live portal, statutory rules, or official assistance for case-specific issues.

Topics covered

- Register and activate an account
- File an RTI application
- Pay RTI fees
- File a First Appeal
- Check application status
- Find PIO contact details

Important distinction

The PIO onboarding and Transfer Officer manuals are for government officers. They should not be used as a citizen filing guide unless the question is specifically about officer onboarding or transfer of charge.

Q1. How do I register on the CG RTI portal?

Register first so that you can create login credentials and use the portal.

- Open the CG RTI portal and select User Registration.
- Read the registration instructions, tick the confirmation/declaration box, and click Next.
- Fill in the required registration details. Fields marked with an asterisk (*) are mandatory.
- Select Preview and check the information carefully. Use Edit if any correction is needed.
- Click Submit after reviewing the details.
- Open the verification link sent to the registered email address.
- Use the same email address as the login ID, create a password, and click Create.

Account activation: Registration is completed only after email verification and password creation.

Password rule shown in the manual: At least 8 characters, including one lowercase letter, one uppercase letter, and one special character.

Source basis: RTI User Manual - registration and account activation workflow (Manual pp. 2-4).

Q2. How do I file an RTI application?

First sign in with your registered email ID and password. The supplied manuals primarily document registration and appeal-related workflows rather than a full citizen-side fresh-RTI screen-by-screen filing flow.

- Log in to the portal using your registered credentials.
- Use the live portal option for starting a new RTI application, where available.
- Read the instructions shown by the portal and complete any acknowledgement before proceeding.
- Enter the requested RTI details clearly and check the information before submission.
- Provide or select public-authority / PIO / office details if the portal asks for them.
- Upload documents only when the portal requests or allows them.
- Complete the payment step if it is applicable to your application.
- After submission, save the registration number and any acknowledgement or receipt.

Manual limitation: The supplied manuals do not establish an exact current menu path or every field for a new citizen RTI application. Follow the options displayed in the live portal.

Source basis: RTI User Manual - registration, RTI instruction, PIO/office, document, and payment workflow references.

Q3. How do I pay RTI fees?

Use the Payment Details stage shown by the portal for the relevant application workflow.

- At Payment Details, select the applicable payment option by ticking the relevant box.
- Click Pay Fee Online.
- The portal directs you to generate an online challan for payment.
- Complete the payment through the bank or payment option shown on the redirected page.
- After a successful transaction, keep the receipt or reference details safely.

Keep for future reference: The manual shows a success screen containing treasury reference number, bank reference number, amount, date and time, bank name, status, and a Print Receipt option.

BPL note: The manual states that a BPL applicant is not required to pay the fee when the required BPL certificate is attached. It does not define every fee category or amount for every case.

Source basis: RTI User Manual - Payment Details (Manual pp. 12-13) and BPL instruction references (Manual pp. 6-7).

Q4. How do I file a First Appeal?

The supplied manual documents First Appeal details within the portal workflow. Follow the fields displayed by the live portal.

- Enter the original RTI application details, including the offline RTI application date and the information-received status, where the workflow asks for them.

- Select First Appeal office details: State, District, Base Department, Office Level, Office Name, and Officer Name.
- Select the appropriate First Appeal Reason Type from the dropdown.
- Enter the First Appeal details and the offline First Appeal date shown by the form.
- Choose the application status and click Save & Next.
- Use Back if you need to correct earlier information.
- Upload documents and complete payment if the workflow requires them.

Manual limitation: The supplied manual documents the fields and workflow, but it does not provide every live-portal starting menu path for a standalone First Appeal.

Source basis: RTI User Manual - RTI Application Details, First Appeal Office Details, First Appeal Application, document, and payment steps (Manual pp. 8-12).

Q5. How can I check application status?

Keep the registration number generated after submission. It is the key reference for future tracking and related portal actions.

- Log in to the live portal with your registered credentials.
- Use the application-status or tracking option shown in the live portal, if available.
- Enter or select the registration number and other details requested by the portal.
- Review the current status and save any reference information displayed.

Manual limitation: The supplied manuals do not document a complete citizen-facing Track Application Status screen or every field used on that screen. Do not rely on an invented menu path; follow the current portal interface.

Source basis: RTI User Manual - registration-number and workflow references; live status tracking screen not fully documented in the supplied citizen manual.

Q6. How do I find PIO contact details?

Use the PIO and Office Details stage or provide enough office information to search a current officer directory.

- Select the relevant State, District, Base Department, Office Level, Office Name, and Officer Name in the portal dropdowns.
- After selecting the correct PIO and office, click Next to continue.
- If the officer or office is not shown in the list, use the blue highlighted link to enter details manually.
- The manual-entry screen shows fields such as PIO name, designation, mobile number, office name, office address, district, base department, and sub-department name.

For the assistant registry search: Provide a department, district, office or school name, office code, or officer email for more precise current PIO/FAA results.

Source basis: RTI User Manual - PIO and Office Details (Manual pp. 7-8).
